

## SOCIO-ECONOMIC SURVEY

### DIGHOLA AND KOMAR GAON ON 02.03.2024

A group of 40 students from the 2<sup>nd</sup> semester of Centre for Studies in Geography, Dibrugarh University embarked on a socio-economic survey to two villages in Dibrugarh, Assam. Divided into two groups, they surveyed Dighola Gaon and Komar Gaon. Their primary objective was to gain insight into the socio-economic situations of these villages through an extensive survey. Upon arrival, the students engaged with the villagers, seeking to understand their way of life, economic activities, and community dynamics. They paid particular attention to the infrastructure, education, healthcare, and employment opportunities available in the villages. The students approached the village head to gather valuable insights into the challenges and aspirations of the local community. Through meaningful interactions and observations, they aimed to grasp the intricate relationship between geography and socio-economic development in rural Assam. The survey provided a unique learning experience, allowing the students to apply theoretical knowledge to real-world contexts and fostering a deeper appreciation for the complexities of rural life.
