Course Objectives:

- To understand and apply the emerging concepts and issues to health, hygiene and sanitation
- To critically understand the present scenario of health hygiene in Indian and Northeast
- To apply and design hygiene promotion and education programmes for development.

### UNITS | TOPICS | CONTENTS | L | T | P
--- | --- | --- | --- | --- | ---
I | Introduction to Sanitation and Hygiene for Health | • Definitions and Concepts  
• Global, national and regional perspective  
• Relation between health, hygiene & sanitation  
• Relevance & importance of health, hygiene in the contemporary times | 10 | 3 | 6
II | Occupational Health and Hygiene | • Concept, definition and its role  
• Link between occupational hygiene, risk assessment & risk management.  
• Sanitation problems of the workplace: industries, academic institutions, corporate, hospitals, Public spaces etc. | 8 | 5 | 6
III | Health Hygiene Promotion & Education: | • Hygiene Behavior promotion & education- concept and its importance  
• Hygiene promotion & education in children & adolescence  
• Government initiatives & policies in rural & urban area | 8 | 4 | 8
IV | Health, hygiene practices in India and in North East India | • Present scenario of health hygiene in India  
• Reproductive & sexual health of the women  
• Indigenous hygiene & sanitation practices  
• Cultural beliefs of the people of NE India in relation to health & hygiene- role & impacts | 10 | 2 | 8

**TOTAL CONTACT HOURS** 64

*Note: End Sem: 60 Marks, In Sem: 40 Marks (20 Marks: Assignment/Practicum and 20 Marks: In Sem Exams)*

**SUGGESTED PRACTICUM:** Students shall have to choose any one/two of the following suggested activities as their Practicum in a Semester for their in-semester assessment.

- Seminars/Presentations on topics from any of the Units
• Comparative analysis on Global, national and regional perspectives of health and hygiene
• Survey of policy implementations
• Case Study reports of cultural beliefs and traditions relating to health.
• Critical analysis of indigenous hygiene and health practices in North east India

SUGGESTED READINGS:

SEMESTER: I
C103: FUNDAMENTALS OF COMMUNICATION
Total Credit: 04

COURSE OBJECTIVES
This course is designed to:

☐ Introduce various means of communication.
☐ Discuss various types of mass media.
☐ Understand the emerging trends of communication system.

LEARNING OUTCOMES
After completion of this course students should be able to:

☐ Analyze critically the fundamentals of communication process.
☐ Identify and distinguish the basic characteristics of mass media.
☐ Evaluate the emerging trends in communication systems and media organization.

D 102: COMMUNICATION THEORIES AND PRACTICES
Total Credit: 04

COURSE OBJECTIVES
This course is designed to:
☐ Provide theoretical understanding of various communication theories
☐ Discuss the meaning and significance of communication theories
☐ Learn application of theories in communication process

LEARNING OUTCOMES
After completion of the course students will be able to:
☐ Identify practices and application of communication theories in communication.
☐ Make use of communication models and theories in News Media, Advertising, Public Relations, Social and other forms of communication.
☐ Design communication message for specific target groups.

SUGGESTED READINGS:

***************
Semester: II  
**G 201: COMMUNITY MEDIA**  
Total Credit: 04

**COURSE OBJECTIVES**
The course is designed to:
- Create a cadre of committed media professionals to work with communities
- Discuss potentials use of community media for social change and development.

**LEARNING OUTCOMES**
After completion of the course students will be able to:
- Design and produce programmes for communities.
- Use community media for social change and development.
- Work in community media organizations.

SUGGESTED PRACTICUM: Students shall have to choose any one/two of the suggested activities from Unit IV as their Practicum in a Semester for their in-semester assessment.

- Comparative Content analysis of the contents of different units.
- Reports on reviews of films & documentaries related to any of the topics listed in Units II, III and IV
- Reviews of news related to any of the topics enlisted in Unit II, Unit III and Unit IV is compulsory for the course.
- Seminar presentations on the contents of various units
- Debates & Discussions on socially relevant topics.

The selection and provision of materials for the practicum will be provided by the Course instructor.

SUGGESTED READINGS:

***************
Course Objectives:

- To impart knowledge on various theoretical and practical aspects of planning, extension and development areas.
- To train and develop students for extension and development organizations.
- To develop necessary professional skills among students in formulation, implementation and evaluation of extension and development issues and programmes.

| I    | Behavioral Change | Behavioral Change- Definition & Concept  
- Behavioural aspects of health & hygiene  
- Key elements of behaviour change- threat, fear response, self- efficacy, subjective norms.  
- Risk factors to hygiene behavior  
- Role of Society in promoting health and hygiene behavior  
- Theory of planned behavior, trans-theoretical model | 13 | 02 | 02 |
| II   | Motivation For Behavioral Change | Basic motivational concepts: Instincts, needs, drives, incentives, intrinsic motivation, extrinsic motivation  
- Factors in behavioral change  
  - Learning – concept. Theories of learning  
  - Incentives & internal motivation,  
  - Theories of motivation  
- Primary fallacies that hinder behavioral change  
- Identifying motivational factors for behavioral change  
- Drivers of change | 13 | 02 | 02 |
| III  | Attitudes & Behavior for health & Hygiene | Concept of attitude  
- Factors & theories related to attitude formation  
- Attitude change – definition & concept  
- Theories of attitude change  
- Persuasion – factors related to attitude change  
- Linking attitude & behavior | 14 | 01 | 02 |
| IV   | Behavior Change Techniques & Challenges | Behavior pattern in different age groups- children, adults and elderly.  
- Behavior change challenges- in different community and age groups  
- Systemizing behavior Change  
- Role of hygiene promoters in Behavioral change  
- Planning & monitoring for Behavior Change | 11 | 02 | 06 |

**TOTAL CONTACT HOURS**

**64**

**Note:** End Sem: 60 Marks, In Sem: 40 Marks (20 Marks: Assignment/Practicum and 20 Marks: In SemExams)
**SUGGESTED PRACTICUM:** Students shall have to choose *any one/two* of the following suggested activities as their Practicum in a Semester for their in-semester assessment.

- Seminars/group presentation from the contents of various units
- A **compulsory** survey report submission by the students (on any topic from Unit II, III or IV) for analyzing the factors related to behavior change in hygiene & sanitation in individuals & community.
- Case study by the students (on any topic from Unit II, III or IV) for analyzing the factors related to behavior change in hygiene & sanitation in individuals & community.
- Group Discussions/ Panel Discussions on understanding and planning strategies for bringing about behavioural changes in individuals and communities.

**SUGGESTED READINGS:**

Course Objectives
- To enable the students to identify hygiene and sanitation problem areas.
- To build skills on developing strategies, policies and programming guidelines on communication in the area.
- To enhance the skills of scientific reportings

| I     | Identification of a problem area/communities and field visit/Policy Analysis | • Basics of Scientific Report Writings  
• Plagiarism  
• Selection of a Problem (community, administrative unit or govt. policy)  
• Background of the Problem region/area, Issues and Challenges: Hygiene and Sanitation for health  
• Visit to local/nearby Influent treatment, Effluent treatment, Sewage Treatment plants/office and beneficiary, etc. |
| II    | Project Management and Process thinking                               | • **Capacity Building:** Workshop, awareness camps, Showing video films, lectures  
• Generation of Database (Primary and Secondary) |
| III   | Dissertation Writing                                                 |                                                                                                 |
| IV    | Viva voce                                                            |                                                                                                 |

Guidelines
- The students have to carry out a study on how the lack of sanitation and effective hygiene practices is affecting health of the people in Assam. The students have to adopt one area (sytems/policies/programmes) and submit a detail report.
- **Evaluation Process**: All the students have to prepare a dissertation based on the fieldwork. Total allotted marks in this paper is 100 (60 marks for report writing, 20 marks for internal assessment and 20 marks for viva voce).
- As a special case, the students will have to submit the synopsis and abstract report at the starting and end of the dissertation project in lieu of the regular in sem examination. The scores will be distributed equally to both the assignments (i.e. 10 each)
SEMESTER: IV  
C 403: INTERNSHIP  
TOTAL CREDITS: 04

Internship Guidelines

- There will be mandatory two months internship
- Internship will be considered as alternative to regular course of 4 credits.
- Internship must be availed during the semester and must complete before the beginning of the fourth semester examinations.
- Minimum 40 days Internship must be availed during the specific time period and minimum 56 hours must be covered during the time.
- A report and a copy of Internship Certificate must be submitted to the department.
- A feedback form in sealed envelope will be forwarded to the internship supervisor of the organization which the supervisor will be sending back in sealed envelope to the Centre for evaluation.
- No extension of deadline for submission of internship report will be allowed under any circumstance.
- Evaluation of Internship and Viva-voce will be conducted immediately after the fourth semester final examination.

| I     | Perception of health in indigenous Societies | • Concept of health, disease, illness and sickness  
• Perception of health in indigenous societies  
• socio-cultural and environmental dimension of health,  
• Causes of disease- supernatural and physical;  
• Diagnosis, disease theory and health care system, occupational and life style ailments;  
• Hygiene- indigenous modes of hygiene and sanitation, traditional diet and nutrition in health, hygiene, and disease;  
• Traditional knowledge of women and child health care practices;  
• Community health and hygiene programme in rural areas of India and Northeast India | 10 | 04 | 04 |
| II    | Ethnomedicine | • Meaning and scope  
• Humoral medicine  
• Ethnomedicine and health seeking behavior, ethnopharmacology  
• Ethnomedicinal practices in India and North East India  
• Traditional healers- shamans, witch doctors and other curers  
• the doctor and patient roles- universal in curing roles: specialization, selection and training, attitude of the public  
• Curing, public and private  
• Role behavior in therapeutic interview and communication  
• Medical pluralism in India | 10 | 04 | 04 |
### III Ethno psychiatry
- The psychiatry of ethno psychiatry
- Cultural dimensions of normal and abnormal.
- Non-western mental illness etiologies, cultural modes of handling mental illness, the ethno psychiatrist, treatment of mentally ill, the culture specific disorders, the healing modalities
- Culture, emotion and psychiatric disorder
- Emotion and Schizophrenic disorder, emotion and major depressive disorder

### IV Epidemiology and tribal health
- Basic epidemiological perspective,
- Etiology of infectious diseases;
- Epidemiologists’ tool kit: observational research design, case control designs, cohort designs, measures of association; holism and epidemiology
- Epidemiology of certain common diseases in indigenous population of India and North East India: malaria, tuberculosis, leprosy, diabetes, cardio-vascular diseases and STD/AIDS.

**Note:** End Sem: 60 Marks, In Sem: 40 Marks (20 Marks: Assignment/Practicum and 20 Marks: In SemExams)

**SUGGESTED PRACTICUM:** Students shall have to choose any one/two of the suggested activities from Unit IV as their Practicum in a Semester for their in-semester assessment.

**SUGGESTED READINGS:**

Course Objectives:

- To familiarize students with the position of women and children in the development discourse.
- To understand the embeddedness of sanitation and hygiene in the discourse on women and child rights.
- To analyse the major challenges and issues in sanitation and hygiene practices on women and children’s health.
