

## Swachhata Abhiyan at Dibrugarh University as a part of Earth Day, NCC Puneet Sagar Abhiyan 2023 – 2024

19<sup>th</sup> April ,2023

Dibrugarh University, Dibrugarh

Puneet Sagar Abhiyan was celebrated at Dibrugarh University with full swing by the cadets of 46 Assam Medical company NCC starting from 4:00pm at 19<sup>th</sup> June, 2023. Everyone first met, mobilized at Bishnurabha Ground and were briefed of the tasks to be performed by the Director in charge Dr. Singh CSPES DU and Senior cadet.

After the briefing all the cadets were put up to task and everyone was assigned duty. The cleaning drive first started at the Bhimbor Deori indoor stadium where the outside lawn and the statue in particularly were cleaned to prestige condition.

The cadets then went to the Administration block where the lawn was cleaned thoroughly and the statue of Dr. Lakhmi Prasad Dutta was left spotless bringing back the glory of the once new statue.

The cadets now turned up to the departments and Centers and started their work enthusiastically, the Assamese and History department block in Particular proved to be a great challenge due to its sheer size and massive statue of Padma Shri Dr. Krishna Kanta Handique, which after the superb work of the cadets looked greater than ever.

After the good work the cadets mobilized again in the Bishnurabha ground had a good work and appreciated each other for the good job. A light refreshment was also given. The work they have done and their contribution to the University and ultimately to the society is for sure impactful. All the work was done with the true spirit of NCC i.e., Unity and Discipline and an example was set to be followed by the rest of the University students. Events like this are essential for personal development and for the contribution to the society and its people.

Jai Hind.
