Theme of the workshop

Question paper is a tool to test how far the expected learning outcomes set for the course are realized. The aim of the workshop is to sensitize the faculties to the process of setting question papers that will align assessment of knowledge with learning outcomes. However, the workshop focuses on the attributes of a good question, attributes of a good question paper, framing of structured long answer questions, short answer questions, MCQs and preparation of a blueprint for assessment of knowledge.

Target Participants

Faculty members of Computer Science departments (BCA/PGDCA/MCA/IT/FYUGP) of the affiliated colleges under Dibrugarh University and the faculty members of Computer Science and Engineering (or any other faculty members if interested)
