FOUR YEAR UNDER GRADUATE PROGRAMME (FYUGP)

DETAILED SYLLABUS OF 3rd SEMESTER SKILL ENHANCEMENT COURSE (SEC)

Course Code : SEC334

Title of the Course : Basics of Remote Sensing and GIS

Nature of Course : Skill Enhancement Course (SEC)

End Semester : 40(T) + 20(P) Marks

In Semester : 40 Marks

Course Credit : 3 Credit

COURSE OBJECTIVES:

- This paper is a Skill Enhancement Course paper that intends to introduce students to different Remote Sensing data analysis techniques
- The objective of the course is to develop some practical knowledge and skills in diversified applications of remote sensing data and GIS techniques

Practical Record: A project file consisting of 5 exercises on using any method on above mentioned themes from Unit 3 and Unit 4

UNITS	CONTENTS	L	T	P	Total Hours
1 (20 Marks)	1.1 Aerial Photography: Principles and types; Geometry of Aerial Photography 1.2 Satellite imagery and their basic properties	5	5		10
2 (20 Marks)	2.1 Concept of resolution – spatial, spectral, temporal, radiometric 2.2 Image interpretation (Visual & Digital): Eléments and Keys of image interpretation, techniques	5	5		10
3 (20 Marks)	3.1Digital Image Processing: Image Enhancement and Classification (Supervised and Un-supervised). 3.2 GIS: Definition, Component, Application data structure	5	5		10
4 (20 Marks)	4.1 Practical on- Georeferencing, Digitization, LULC Mapping (supervised and unsupervised classification) 4.2Hands on training of using GPS			30	30
	Total	**15**	**15**	**30**	**60**

MODES OF IN-SEMESTER ASSESSMESNT: (40 Marks)

- Two Internal Examination **-30 Marks (15 marks Theory + Practical 5 Marks)**
- Others (Any one) **-10 Marks**

    - Group Discussion
    - Seminar presentation on any of the relevant topics
    - Practical exercise

LEARNING OUTCOMES:

After successful completion of this course students will be able:

- To develop their skills on using geo-spatial technologies
- To acquaint knowledge which will help them in their further studies
- This Skill Enhancement Course on RS & GIS will prepare the students for different professional services like GIS Analyst etc.
